Hi Liz,

For me its showing 8 AM starts, but that may be because of where our FWS server is located, not sure if everyone in MI would have that same issue.

It generally shows the times in your own time zone, so 8am start time is 9am for you. I assume that's what you saw? I was proposing times from 8am-3pm central.

Sorry for any confusion!

Hi Liz,

The times were ET right? Just noticed some early starts for CT so just confirming.

Thanks

Scott

Federal partners and GLFC staff,

EPA would like to set up a 60-min conference call in May to discuss NEPA compliance and NEPA Roles and Responsibilities for USDA-NRCS and USACE regarding the Grand River Restoration Initiatives.

This will relate to the conversations EPA has already had with NRCS and USACE regarding NEPA commitments and the overlap between the NRCS RCPP and the USACE project on the Grand River.

I am out of the office all next week and most of the week of May 13th. As such, I'm proposing we hold a meeting during the week of May 20-25 or the following week (May 28-31).

It's critical that we have representation from NRCS, USACE, GLFC, and, ideally, USFWS (since they are a cooperating agency) in the call. I am leaving state partners off this invite as this discussion relates solely to NEPA compliance.

This link will show you proposed times for a one hour meeting when EPA staff are available to meet.

<http://whenisgood.net/NEPAmeeeting>

All you need to do is add your name, and click on the times that you are available.

Once there is a date where we're all available, I'll send out a meeting request with call-in information.

Thanks much,
Liz Pelloso
